SUBJECT: Proposed Federal Standard No. 256a, FOLDER, FILE; BLANK, TWO LEAF - Project Number 7530-210

Proposed Federal Standard No. 256a, FOLDER, FILE; BLANK, TWO LEAF is being submitted to you for coordination as a mandatory Federal Standard as prescribed in Federal Regulations.

It is suggested that it be reviewed for technical adequacy and from the standpoint of coverage to meet your requirements. In this regard, assistance in such determinations can be provided by regional and departmental records management personnel who participated in the development of the standard.

If it is considered that this standard does not provide for your essential needs, a written request for adding to or otherwise changing the standard, supported by adequate justification, should be submitted as an essential comment in replying to this letter. The justification should explain wherein the standard does not provide for essential needs.

It is requested that a reply be furnished. If the standard provides for your essential requirements, the reply should indicate concurrence with the document as written.

In order that your comments may be available for consideration along with those of other Federal agencies, it will be appreciated if we may hear from you by July 26, 1968.

Replies or requests for additional information should be addressed to the projects engineer,

Walter H. Dieterichs

PROPOSED FEDERAL STANDARD

FOLDER, FILE; BLANK, TWO LEAF

This proposed Federal Standard draft dated May 9, 1968, prepared by the General Services Administration, Federal Supply Service, Standardization Division, Washington, D. C. 20405, has not been approved for promulgation and is subject to modification. DO NOT USE FOR PROCUREMENT PURPOSES.

S1. PURPOSE AND SCOPE. This standard establishes 18 items of file folders, which have been adopted to achieve the highest degree of uniformity and standardization for the Federal Supply Service.

S2. APPLICATION. Purchases from commercial sources under UU-F-001206, of the issue in effect on the date of invitation for bids, shall be limited to the items specified herein. Existing Government stocks of nonstandard file folders shall continue to be utilized until exhausted. In those cases where the Federal standard eliminates supply items, and the items eliminated are under contract, if the contract cannot be negotiated or amended to conform to the standard items, the Federal Standard becomes mandatory at the contract expiration date.

S3. Standard characteristics and item identification.
